Technical datasheet

PU Moulded T10 -1210 Steel

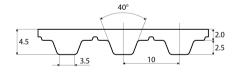

Article code: TBUM000153

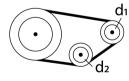

General information								
Productgroup	Timing belts, PU Mou	Timing belts, PU Moulded						
Industry segment	General industry; Co	General industry; Container & packaging; Wood: Panel board						
Main product feature	Positive drive, Non-m	Positive drive, Non-marking, Wear resistant						
Belt construction								
Tension member		steel						
Material	body	body Polyuret						
Surface	tooth side	tooth side Polyurethane						
	back side	Polyuret	Polyurethane					
Characteristics								
Food Grade (FG)	no							
Antistatic (AS)	no							
Oil & Fat resistance	yes							
Technical data								
Tooth	profile			SLV8				
	pitch				mm	0.39	ın.	
Hardness body material	ISO 868				Shore	0.10	•	
Belt thickness					mm	0.18		
Belt weight Coefficient of friction	tooth aide to steel	tooth side to steel		4.8	kg/m²	0.98	lbs/ft²	
Operating temperature		continuous		-25 / 80		-13 / 176	°E	
Minimum pulley diameter		A) without counter flexing		-25 / 80	C	-15/1/0	1	
Finitian puncy diameter	A) without counter ne	Ay wallout counter hearing		36.35	mm	1.43	in	
			d1 d2		mm	2.36		
	B) with counter flexin	B) with counter flexing		20				
	,			61.81	mm	2.43	in.	
			d2	60	mm	2.36	in.	
Belt width	maximum			400	mm	15.75	in.	
Belt length				1210	mm	47.64	in.

B) with counter flexing

Fabrication

This information on the fabrication options is general, please contact Ammeraal Beltech to inquire for the specific fabrication possibilities of the timing belt of your choice.

Cleats welded or mechanically attached, metal teeth, guides welded or glued.

Covers can be welded, glued, coated or vulkanized onto the back side of the timing belt.

Thermoplastic covers can be embossed.

Perforations, lateral and logitudinal slots, lateral and longitudinal profiles.

Additional Information

Tooth profile according to standard: metric ISO 17396 , imperial ISO 5296-1, curvilinear ISO 13050, depending on the belt type.

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. Consult our specialists for further information like technical calculations. Instructions regarding joining, storage & maintenance and tracking & tensioning.

Standard

Because of continuous development, the presented data is subject to alteration. This data replaces that included in previous publications. Ammeraal Beltech excludes any liability for the incorrect use of the above stated information. Subject to the general terms and conditions of sale and delivery, as applied by its operating companies, are all activities performed and services rendered by Ammeraal Beltech.
