**Technical datasheet** 

## Ropanyl ESM 10/2 00+02 white M2 FG NF

Article code: SBRY593901

General information

General information							
Product group	Synthetic Belts						
Industry segment	Food: Meat & poultry, Confectionary & candy, Bakery; Container & packaging						
Main product feature	Foodgrade, Non-fraying						
Indication of use	Slider bed, Rollers, Fl	Slider bed, Rollers, Flat					
Belt construction							
Tension layer		polyester, stable					
Number of plies		2	2				
Top side	material	Ropanyl, TPU	Ropanyl, TPU				
	finish	smooth, M2 Ma	smooth, M2 Matt finish				
	color	white	white				
Bottom side	material	Ropanol, PUR	Ropanol, PUR				
	finish	impregnated fa	impregnated fabric				
	color	white	white				
Characteristics							
Food Grade (FG)	yes	EC 1935/2004,	EC 1935/2004, EU 10/2011; FDA				
Antistatic (AS)	no						
High conductive (HC)	no						
Flame-retardant (FR)	no						
ATEX approval	no						
Technical data							
Hardness	ISO 868	top side	93A S	Shore			
Force at 1% elongation (static)	ISO 21181		10 N	N/mm	57.1	lbs/in.	
Thickness	AB method KV.002	total	1.3 r	nm	0.05	in.	
		top cover	0.2 n	nm	0.01	in.	
Weight	AB method KV.004		1.4 k	kg/m²	0.29	lbs/ft <sup>2</sup>	
Operating temperature	continuous	from / to	-20 / 90 °	°C	-4 / 194	°F	

Fabrication

Hot splicing is always preferable. Glueing can only be done when the belt is exposed to normal temperature and the humidity is not excessive. For the working method, consult the splice information and the equipment literature. Apply the recommended splice as indicated in the seperate information.

## **Additional information**

**Minimum pulley diameter** 

Manufacturing width

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. We recommend to keep the belt tension to a practical working minimum to maximize the service life of the belt and machine parts. Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt. Store belts in a cool and dry place and if possible in their original packaging.

For details consult 'Storage and handling instructions' or contact our specialist.
