Technical datasheet

Ropanyl EX 25/2 00+P18 petrol AS FG

Ammeraal Beltech
Innovation & Service in Belting

Article code: SBRY515111

General information		
Product group	Synthetic Belts	
Main product feature	Antistatic, Foodgrade, Low noise	

Belt construction					
Tension layer		polyester, stable			
Number of plies		2			
Top side	material	Ropanyl, TPU			
	finish	profile, P18 Medium fabric structure pr			
	color	petrol			
	finish	impregnated fabric			

Characteristics		
Food Grade (FG)	yes	
Antistatic (AS)	yes	ISO 21178
High conductive (HC)	no	
Flame-retardant (FR)	no	
ATEX approval	no	

Technical data						
Force at 1% elongation (static)	ISO 21181		25	N/mm	142.75	lbs/in.
Thickness	AB method KV.002	total	3.75	mm	0.15	in.
Weight	AB method KV.004		0	kg/m²	0	lbs/ft²
Manufacturing width	standard		0	mm	0	in.
	maximum		0	mm	0	in.

Fabrication

Hot splicing is always preferable. Glueing can only be done when the belt is exposed to normal temperature and the humidity is not excessive. For the working method, consult the splice information and the equipment literature. Apply the recommended splice as indicated in the seperate information.

Additional information

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. We recommend to keep the belt tension to a practical working minimum to maximize the service life of the belt and machine parts.

Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt. Store belts in a cool and dry place and if possible in their original packaging.

For details consult 'Storage and handling instructions' or contact our specialist.
