**Technical datasheet** 

## POLYCON 2F/16 TR24 00/Y06A AS FA PR

Ammeraal Beltech
Innovation & Service in Belting

Article code: SBMD000167

General information	
Product group	Synthetic Belts
Industry segment	Food
Main product feature	Antistatic, Foodgrade

Belt construction					
Number of plies		2			
Top side	material	POLYCON, POLYCON			
	finish	matt, A matt			
	color	transparent			
Bottom side	material	Bare fabric, Bare fabric			
	finish	profile			

Characteristics	
Food Grade (FG)	yes
Antistatic (AS)	yes

Technical data						
Hardness	ISO 868	top side	92A	Shore		
Force at 1% elongation (static)	ISO 21181		16	N/mm	91.36	lbs/in.
Thickness	AB method KV.002	total	2.40	mm	0.09	in.
		top cover	0.60	mm	0.02	in.
Weight	AB method KV.004		2.3	kg/m²	0.47	lbs/ft²
Operating temperature	continuous	from / to	-10 / 70	°C	14 / 158	°F
	short	from / to	-10 / 70	°C	14 / 158	°F
Minimum pulley diameter	flexing		80	mm	3.15	in.
	backflexing		100	mm	3.94	in.
Manufacturing width	standard		3000	mm	118.11	in.

## **Fabrication**

Hot splicing is always preferable. Glueing can only be done when the belt is exposed to normal temperature and the humidity is not excessive. For the working method, consult the splice information and the equipment literature. Apply the recommended splice as indicated in the seperate information.

## **Additional information**

This sheet contains typical values, which apply to a temperature of approx. 20  $^{\circ}$ C (68  $^{\circ}$ F), unless otherwise stated, individual data may differ.

We recommend to keep the belt tension to a practical working minimum to maximize the service life of the belt and machine parts.

Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt. Store belts in a cool and dry place and if possible in their original packaging.

For details consult 'Storage and handling instructions' or contact our specialist.
