Technical datasheet

PU moulded 3240 MXL Steel

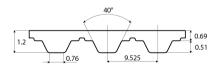

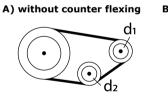

Article code: TBUM000314

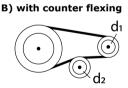

General information						
Productgroup	Timing belts, PU Moulded					
Industry segment	General industry; Wood; Building materials: Stone & ceramics, Bricks & tiles					
Main product feature	Positive drive, Non-marking, Wear resistant					
Belt construction						
Tension member	steel					
Material	body Polyurethan		ne			
Surface	tooth side Polyurethan		ne			
	back side Polyurethar		ne			
Characteristics						
Food Grade (FG)	no					
Antistatic (AS)	no					
Oil & Fat resistance	yes					
Technical data						
Tooth	profile			MXL		
	pitch			2.032 mr	m 0.08	in.
Hardness body material	ISO 868			85A Sh	iore	
Belt thickness				1.2 mr	m 0.05	in.
Belt weight				1.2 kg,	/m² 0.25	lbs/ft²
Coefficient of friction	tooth side to steel		dynamic	0,5		
Operating temperature	continuous		from / to	-30 / 80 °C	-22 / 176	°F
Minimum pulley diameter	A) without counter flexing		number of teeth, t1	15		
			d1	9.19 mr	m 0.36	in.
			d2	15 mr	m 0.59	in.
	B) with counter f	lexing	number of teeth, t1	18		
			d1	11.13 mr		
			d2	15 mr		
Belt width	maximum			270 mr	m 10.63	in.
Belt length				822.9 mr	m 32.4	in.

Fabrication

This information on the fabrication options is general, please contact Ammeraal Beltech to inquire for the specific fabrication possibilities of the timing belt of your choice.

Cleats welded or mechanically attached, metal teeth, guides welded or glued.

Covers can be welded, glued, coated or vulkanized onto the back side of the timing belt.

Thermoplastic covers can be embossed.

Perforations, lateral and logitudinal slots, lateral and longitudinal profiles.

Additional Information

Tooth profile according to standard: metric ISO 17396, imperial ISO 5296-1, curvilinear ISO 13050, depending on the belt type.

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. Consult our specialists for further information like technical calculations. Instructions regarding joining, storage & maintenance and tracking & tensioning.

Standard

Because of continuous development, the presented data is subject to alteration. This data replaces that included in previous publications. Ammeraal Beltech excludes any liability for the incorrect use of the above stated information. Subject to the general terms and conditions of sale and delivery, as applied by its operating companies, are all activities performed and services rendered by Ammeraal Beltech.
