Technical datasheet

Ropanyl EM 6/2 00+02 light blue M2 AS FG AM /93 Sh

Article code: SBRY577971

General information							
Product group	Synthetic Belts	Synthetic Belts					
Industry segment	Food: Confectionary & candy, Bakery; Container & packaging						
Main product feature	Antistatic, Foodgrade, Anti-microbial						
Indication of use	Slider bed, Rollers, Fla	Slider bed, Rollers, Flat					
Belt construction							
Tension layer		polyester, stable					
Number of plies		2	2				
Top side	material	Ropanyl, TPU	Ropanyl, TPU				
	finish	smooth, M2 Mat	smooth, M2 Matt finish				
	color	Light blue					
Bottom side	material	Ropanol, PUR					
	finish	impregnated fat	impregnated fabric				
	color	Light blue	Light blue				
Characteristics							
Food Grade (FG)	yes	EC 1935/2004,	EC 1935/2004, EU 10/2011; FDA				
Antistatic (AS)	yes	ISO 21178	ISO 21178				
High conductive (HC)	no						
Flame-retardant (FR)	no						
ATEX approval	yes	ATEX II - KEMA 05ATEX2164 U					
Technical data							
Hardness	ISO 868	top side		Shore			
Force at 1% elongation (static)	ISO 21181			N/mm		lbs/in.	
Thickness	AB method KV.002	total	1.50		0.06		
		top cover		mm	0.01		
Weight	AB method KV.004			kg/m ²		lbs/ft ²	
Operating temperature	continuous	from / to	-20 / 90		-4 / 194		
	short	from / to	-30 / 110		-22 / 230		
Minimum pulley diameter	flexing			mm	0.55		
	backflexing			mm	1.57		
Manufacturing width	standard		2020	mm	79.53		
	maximum		3000	mm	118.11	in.	

Fabrication

Hot splicing is always preferable. Glueing can only be done when the belt is exposed to normal temperature and the humidity is not excessive. For the working method, consult the splice information and the equipment literature. Apply the recommended splice as indicated in the seperate information.

Additional information

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. We recommend to keep the belt tension to a practical working minimum to maximize the service life of the belt and machine parts.

Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt. Store belts in a cool and dry place and if possible in their original packaging.

For details consult 'Storage and handling instructions' or contact our specialist.

Because of continuous development, the presented data is subject to alteration. This data replaces that included in previous publications. Ammeraal Beltech excludes any liability for the incorrect use of the above stated information.
