Technical datasheet

Concernal information

Flexam EX 15/2 0+01 black AS FR IR

Article code: SBRP0444P2

Synthetic Belts				
Airports; Logistics				
Antistatic, Flame retardant, Impact resistant, Low noise				
Slider bed, Rollers, Flat				
	polyester, stable			
	2			
material	Flexam, PVC			
finish	impregnated fabric			
color	black			
material	fabric, polyester			
finish	bare fabric			
color	natural			
no				
yes	ISO 21178			
no				
no				
yes	ASTM D-378			
	Airports; Logistics Antistatic, Flame retardant, Im Slider bed, Rollers, Flat material finish color material finish color no yes no no			

Technical data						
Force at 1% elongation (static)	ISO 21181		15	N/mm	85.65	lbs/in.
Thickness	AB method KV.002	total	2.50	mm	0.1	in.
Weight	AB method KV.004		2.8	kg/m²	0.57	lbs/ft²
Operating temperature	continuous	from / to	-15 / 80	°C	5 / 176	°F
	short	from / to	-15 / 100	°C	5 / 212	°F
Minimum pulley diameter	flexing		50	mm	1.97	in.
	backflexing		70	mm	2.76	in.
Manufacturing width	standard		2020	mm	79.53	in.

Fabrication

ATEX approval

Hot splicing is always preferable. Glueing can only be done when the belt is exposed to normal temperature and the humidity is not excessive. For the working method, consult the splice information and the equipment literature. Apply the recommended splice as indicated in the seperate information.

Additional information

This sheet contains typical values, which apply to a temperature of approx. 20 °C (68 °F), unless otherwise stated, individual data may differ. We recommend to keep the belt tension to a practical working minimum to maximize the service life of the belt and machine parts.

Always protect belts from sunlight/UV-radiation, avoid temperatures below 10°C and above 40°C, dust and dirt. Store belts in a cool and dry place and if possible in their original packaging.

For details consult 'Storage and handling instructions' or contact our specialist.
